Suplementos para los Anexos Técnicos de la Resolución 019-2016

Tomo 1 de 3 – ubl-Invoice 2.0 - Todos los elementos XML de DIAN_UBL.xsd

Documento de consulta para los **Analistas de Negocios Electrónicos** de las empresas que deben diseñar las facturas electrónicas de acuerdo con lo previsto en el reglamento por el Proyecto de Masificación de Factura Electrónica.

URL http://www.dian.gov.co

Bogotá DC, Edición de mayo de 2018

Tecnologías XML desde:

URL http://ubl.xml.org

URL http://www.oasis-open.org

URL http://www.cranesoftwrights.com

```xml
 1  <?xml version="1.0" encoding="UTF-8"?>
 2  <!-- Archivo de muestra con todos los campos que utiliza el ubl-Invoice2.0. - Forma parte de un
     conjunto
 3  de tres (3) archivos que sirven de mapa entre las definiciones y las ubicaciones de los conceptos de
 4  negocios del UBL y los conceptos comerciales y corporativos implementados en los procesos que
     realizan
 5  las empresas obligadas a facturar electrónicamente, "OFE", y sus clientes - adquirentes.
 6  Se utilizan los namespace de la DIAN y en consecuencia los prefijos definidos en el elemento raiz.
 7  Los prefijos son elementos de personalización de la DIAN con propósitos de control.
 8  Este archivo ejemplifica cada uno de los fragmentos que pueden utilizarse al diseñar las facturas del
 9  sistema de Factura Electrónica de la DIAN.
10  Los usuarios de este conjunto de documentos son los analistas de negocios electrónicos para preparar
    las
11  instrucciones que deben dar a los ingenieros de software quienes implementan las aplicaciones
    informáticas
12  corporativas. De igual manera, será la guía para convenir los intercambios de datos con sus socios de
13  negocios y con sus clientes. Es una herramienta útil para la orquestación y la coreografía de
    procesos.
14  Encontrará elementos con valores que significan "tipos de datos de UBL", otros que corresponden a
    constantes del
15  SIEFE-DIAN, y otros que son valores variables que dependen del ambiente de operación.
16  Tipos de datos UBL:
17      * normalizedString
18      * String
19      *
20  Constantes del SIEFE:
21      * "United Nations Economic Commission for Europe"
22      * "CO, DIAN (Direccion de Impuestos y Aduanas Nacionales)"
23  Variables:
24      * "http://www.dian.gov.co/contratos/facturaelectronica/v1
    http://localhost/micrositios/fac_electronica/documentos/XSD/r1_localhost/DIAN_UBL.xsd"
25  Las precisiones sobre estos contenidos se encuentran en los archivos XSD, en los Anexos de
26  la Resolución 019-2016, y en las ejemplificaciones sobre el uso y aplicación comercial,
    administrativa,
27  contable, tributaria, legal y demás asuntos pertinentes para el desempeño de las actividades
28  empresariales, de los fragmentos de datos. Estos son algunos de los conocimientos necesariso en los
    ámbitos
29  de trabajo del analista de negocios electrónicos, aplicables en los nuevos ambientes automatizados
30  de negocios con documentos desmaterializados.
